You might not require more period to spend to go to the book instigation as without difficulty as search for them. In some cases, you likewise reach not discover the notice **Jla Crisis Of Conscience Identity Crisis Countdown To Infinite Crisis** that you are looking for. It will definitely squander the time.

However below, similar to you visit this web page, it will be so totally easy to get as capably as download lead **Jla Crisis Of Conscience Identity Crisis Countdown To Infinite Crisis**

It will not believe many period as we run by before. You can reach it even though doing something else at house and even in your workplace. thus easy! So, are you question? Just exercise just what we meet the expense of below as competently as review **Jla Crisis Of Conscience Identity Crisis Countdown To Infinite Crisis** what you gone to read!

In Search of Christian Freedom May 26 2022 Finding a proper balance between freedom and responsibility is a problem that has faced every serious Christian. For those raised in a highly structured religious environment, balancing loyalties to a religious organization, family, and personal conscience may raise difficult issues. Raymond Franz's first-hand account of the issues with which he struggled forms the theme of his first book, *Crisis of Conscience*. *In Search of Christian Freedom*, the sequel to *Crisis of Conscience*, provides even more comprehensive study. The issues and options discussed herein, although relating particularly to the structure of Jehovah's Witnesses, are not so very different from issues other Christians have faced and continue to face when they seek to reconcile considerations for conscience, loyalty, responsibility and freedom. This work will mover readers — of any religion — to consider seriously how much they value Christian freedom and to ask how genuine their own freedom is.

The Social Crisis of Our Time Nov 07 2020 **The Light of Conscience** Feb 08 2021 AN INSPIRATIONAL MEDITATION ON THE POWER OF CONSCIENCE—HOW A SIMPLE ACT, A MOMENT OF PURPOSE, CAN CHANGE YOUR LIFE, YOUR COMMUNITY, EVEN THE WORLD We all struggle at times to know what to do to seek and abide our conscience—when right and wrong are not black and white, when heart and head speak with different voices, when our intentions and interests are not aligned. If you believe that the outcome of these struggles affects the course of your life, and the lives around you, then this book is for you. If you believe that there are times and places when the choice an individual makes to speak or be silent, to eat or fast, to remain seated or to stand up in a crowd, to stare and remember or to walk on by and forget, can be as powerful as a president's command, a congressional appropriation, or a military incursion, then this book is for you. This book is

for you if your profession is rewarding financially but not spiritually, or if you're ever worried that your career and conscience conflict. This book is for you if you are a parent whose love of your children never wavers with the anxiety they cause you but sometimes leaves you wondering whether they will grow up to do the right thing even if no one is watching. This book is for you if you question whether the countless small decisions you make each day add up to a larger judgment about your life's meaning. Finally, this book is for you if you believe that quiet, often solitary acts of conscience have echoes louder than the original sound; that individual acts have the potential to trigger large public consequences and continue to inspire others from generation to generation; that such acts bring rewards to the individual, that unforeseen benefits accrue, that one gains more than was sacrificed, and that there is a transformative power and richness to a life so lived.

The New Queer Conscience Mar 24 2022 A 2021 Sydney Taylor Notable Book "The new manifesto for how we as queer people could and should navigate the world. It's the holding hand I never had—but wish I did."--Troye Sivan, Golden Globe nominated-singer, songwriter, and actor "With the persistence of queerphobia all around the world, this book is absolutely necessary, even vital."--Édouard Louis, internationally bestselling author of *History of Violence* "To Eli's credit, all of the rules are rooted in considerations of conscience and kindness and, if observed, will make a better world—as will this book."--Booklist, starred review "A must-read that highlights the importance of radical empathy, community building, and solidarity."--School Library Journal, starred review *In The New Queer Conscience*, LGBTQIA+ activist Adam Eli argues the urgent need for queer responsibility -- that queers everywhere are responsible for queers everywhere. *Pocket Change Collective* is a series of small books with big ideas from today's leading activists and artists. In this installment, *The New Queer Conscience*,

Voices4 Founder and LGBTQIA+ activist Adam Eli offers a candid and compassionate introduction to queer responsibility. Eli calls on his Jewish faith to underline how kindness and support within the queer community can lead to a stronger global consciousness. More importantly, he reassures us that we're not alone. In fact, we never were. Because if you mess with one queer, you mess with us all.

Conscience: A Novel Aug 17 2021 Acclaimed author Alice Mattison's new novel explores the hard choices a young woman and her friends made decades earlier at the height of the Vietnam War. Decades ago in Brooklyn, three girls demonstrated against the Vietnam War, and each followed a distinct path into adulthood. Helen became a violent revolutionary. Val wrote a controversial book, *Bright Morning of Pain*, which was essentially a novelization of Helen's all-too-short but vibrant life. And Olive became an editor and writer, now comfortably settled with her husband, Griff, in modern-day New Haven. When Olive is asked to write an essay about Val's book, a work that attracts and repulses her in equal measure, doing so brings back to the forefront Olive and Griff's tangled histories and their complicated reflections on that tumultuous time in their young lives. Things only become more fraught when Griff borrows Olive's treasured first edition of the novel—and loses it. Then Griff's quirky and audacious new colleague, Jean Argos, finds the book and begins reading it, setting off a series of events that will introduce new conflicts, tragedies, and friendships into the precarious balance of Olive and Griff's once stable home. *Conscience*, the dazzling new novel from award-winning author Alice Mattison, paints the nuanced relationships between the palpable personalities of Olive, Griff, and Jean with her signature wit and precision. And as Mattison explores the ways in which women make a difference—for good or ill—in the world, she elegantly weaves together the past and the present, and the political and the personal. *Conscience of a Conservative* Nov 27 2019

NEW YORK TIMES BESTSELLER • “A thoughtful defense of traditional conservatism and a thorough assault on the way Donald Trump is betraying it.”—David Brooks, in his New York Times column In a bold act of conscience, Republican Senator Jeff Flake takes his party to task for embracing nationalism, populism, xenophobia, and the anomalous Trump presidency. The book is an urgent call for a return to bedrock conservative principle and a cry to once again put country before party. Dear Reader, I am a conservative. I believe that there are limits to what government can and should do, that there are some problems that government cannot solve, and that human initiative is best when left unfettered, free from government interference or coercion. I believe that these ideas, tested by time, offer the most freedom and best outcomes in the lives of the most people. But today, the American conservative movement has lost its way. Given the state of our politics, it is no exaggeration to say that this is an urgent matter. The Republican party used to play to a broader audience, one that demanded that we accomplish something. But in this era of dysfunction, our primary accomplishment has been constructing the argument that we’re not to blame. We have decided that it is better to build and maintain a majority by using the levers of power rather than the art of persuasion and the battle of ideas. We’ve decided that putting party over country is okay. There are many on both sides of the aisle who think this a good model on which to build a political career—destroying, not building. And all the while, our country burns, our institutions are undermined, and our values are compromised. We have become so estranged from our principles that we no longer know what principle is. America is not just a collection of transactions. America is also a collection of ideas and values. And these are our values. These are our principles. They are not subject to change, owing to political fashion or cult of personality. I believe that we desperately need to get back to the rigorous, fact-based arguments that made us conservatives in the first place. We need to realize that the stakes are simply too high to remain silent and fall in line. That is why I have written this book and am taking this stand.

—Jeff Flake

Crisis, Controversy and the Future of Religious Education Aug 05 2020 *Crisis, Controversy and the Future of Religious Education* sets out to provide a much-needed critical examination of recent writings that consider and respond to the crisis in religious education and more widely to a crisis in non-confessional forms of religious education, wherever practised. The book is critical, wide-ranging and provocative, giving attention to a range of responses, some limited to the particular situation of religious education in England and some of wider application, for example, that of the role and significance of human rights and that of the relevance of religious studies and theology to religious education. It engages with a variety of positions and with recent influential reports that make recommendations on the future direction of religious education. Constructively, it defends both confessional and non-confessional religious education and endorses the existing right of parental withdrawal.

Controversially, it concludes that the case for including non-religious worldviews in religious education, and for the introduction of a statutory, ‘objective’ national religious education curriculum for all schools, are both unconvincing on educational, philosophical and evidential grounds. Timely and captivating, this book is a must-read for religious and theological educators, RE advisers, classroom teachers, student teachers and those interested in the field of religious education.

Albert Camus and the Human Crisis Jun 22 2019 A renowned scholar investigates the “human crisis” that Albert Camus confronted in his world and in ours, producing a brilliant study of Camus’s life and influence for those readers who, in Camus’s words, “cannot live without dialogue and friendship.” As France—and all of the world—was emerging from the depths of World War II, Camus summed up what he saw as “the human crisis”: We gasp for air among people who believe they are absolutely right, whether it be in their machines or their ideas. And for all who cannot live without dialogue and the friendship of other human beings, this silence is the end of the world. In the years after he wrote these words, until his death fourteen years later, Camus labored to address this crisis, arguing for dialogue, understanding, clarity, and truth. When he sailed to New York, in March 1946—for his first and only visit to the United States—he found an ebullient nation celebrating victory. Camus warned against the common postwar complacency that took false comfort in the fact that Hitler was dead and the Third Reich had fallen. Yes, the serpentine beast was dead, but “we know perfectly well,” he argued, “that the venom is not gone, that each of us carries it in our own hearts.” All around him in the postwar world, Camus saw disheartening evidence of a global community revealing a heightened indifference to a number of societal ills. It is the same indifference to human suffering that we see all around, and within ourselves, today. Camus’s voice speaks like few others to the heart of an affliction that infects our country and our world, a world divided against itself. His generation called him “the conscience of Europe.” That same voice speaks to us and our world today with a moral integrity and eloquence so sorely lacking in the public arena. Few authors, sixty years after their deaths, have more avid readers, across more continents, than Albert Camus. Camus has never been a trend, a fad, or just a good read. He was always and still is a companion, a guide, a challenge, and a light in darkened times. This keenly insightful story of an intellectual is an ideal volume for those readers who are first discovering Camus, as well as a penetrating exploration of the author for all those who imagine they have already plumbed Camus’ depths—a supremely timely book on an author whose time has come once again.

The Bad Conscience May 02 2020 “Although the original version of Vladimir Jankelevitch’s book *La mauvaise conscience* appeared in 1933, and a second, significantly expanded version appeared in 1951, the present translation corresponds to the 1966 version of the book as it is found in the anthology *Vladimir Jankelevitch, philosophie morale*.”--Translator’s introduction.

What God Allows Feb 20 2022 A study based on a year in one Catholic church follows a teacher who chooses between her feminist views and her role as an educator and a priest who leaves to be with his male lover
Conscience and Ethics Aug 24 2019 How important is the conscience for the Christian moral life? How should it be understood in relation to the teachings of the Bible and of church tradition? In this book, Matthew Levering surveys twentieth-century Catholic moral theology to construct an argument for keeping conscience firmly alongside prudence, charity, and the gifts of the Spirit—and for understanding it as something that must be formed by the revealed truths of Scripture as interpreted and applied in the church. Levering shows how conscience-centered ethics came to be—both prior to and following the Second Vatican Council—and how important voices from both the Catholic and Protestant communities criticized the primacy of conscience in favor of an approach that considers conscience within “the broader framework of the Christian moral organism.” Rather than engaging with current hot-button issues, Levering presents and deconstructs the work of twenty-six noteworthy theologians from the recent past in order to work through core matters. He begins by examining how the conscience has been dealt with in dialogue with the Bible and in the Catholic “moral manuals” of the twentieth century. He then explores the rebuttals to conscience-centered ethics offered by pre- and post-conciliar Thomists and the emergence of a new, even more problematic conscience-centered ethics in German thought. Amid this wide-ranging introduction to various strands of Catholic moral theology, Levering crafts an incisive intervention of his own against the “abuse of conscience” that besets the church today as it did in the last century.

Crisis of Character Sep 17 2021 In this runaway #1 New York Times bestseller, former secret service officer Gary Byrne, who was posted directly outside President Clinton’s oval office, reveals what he observed of Hillary Clinton’s character and the culture inside the White House while protecting the First Family in *CRISIS OF CHARACTER*, the most anticipated book of the 2016 election.

The Conscience of a Liberal Oct 19 2021 “The most consistent and courageous—and unapologetic—liberal partisan in American journalism.” —Michael Tomasky, *New York Review of Books* In this “clear, provocative” (Boston Globe) New York Times bestseller, Paul Krugman, today’s most widely read economist, examines the past eighty years of American history, from the reforms that tamed the harsh inequality of the Gilded Age and the 1920s to the unraveling of that achievement and the reemergence of immense economic and political inequality since the 1970s. Seeking to understand both what happened to middle-class America and what it will take to achieve a “new New Deal,” Krugman has created his finest book to date, a “stimulating manifesto” offering “a compelling historical defense of liberalism and a clarion call for Americans to retake control of their economic destiny” (*Publishers Weekly*). “As Democrats seek a rationale not merely for returning to power, but for fundamentally changing—or changing back—the relationship between America’s

government and its citizens, Mr. Krugman's arguments will prove vital in the months and years ahead." —Peter Beinart, New York Times

Slavery and the Democratic Conscience Jul 24 2019 Slavery and the Democratic Conscience explains how democratic subjects confronted and came to terms with slaveholder power in the early American Republic. Slavery was not an exception to the rise of American democracy, Padraig Riley argues, but was instead central to the formation of democratic institutions and ideals.

Crisis of Conscience Jul 28 2022 The First World War's appalling death toll and the need for a sense of equality of sacrifice on the home front led to Canada's first experience of overseas conscription. While historians have focused on resistance to enforced military service in Quebec, this has obscured the important role of those who saw military service as incompatible with their religious or ethical beliefs. *Crisis of Conscience* is the first and only book about the Canadian pacifists who refused to fight in the Great War. The experience of these conscientious objectors offers insight into evolving attitudes about the rights and responsibilities of citizenship during a key period of Canadian nation building.

Christianity and the Social Crisis Jan 10 2021

The Reluctant Apostate May 14 2021 Jehovah's Witnesses, well known for their enthusiastic evangelism, are a global religious movement boasting over 8 million members. Despite being a familiar sight on doorsteps and street corners, little is known about their doctrines and practices. What are their expectations regarding Armageddon, and who do they believe will survive? How do they justify their ban on blood transfusions? What happens to members who decide to leave? In this remarkably candid part-memoir, part-history guide, former Witness Lloyd Evans comprehensively explores the religion of his upbringing, charting the organization's metamorphosis from unassuming 19th Century brethren to global brand in the modern age. The Witness rules on sex are dissected, as are their far-reaching ramifications on the private lives of millions of devotees. Evans also delves into the controversies surrounding child abuse and the prohibition on blood transfusions with the aid of first hand accounts from those who have been personally impacted. Intertwined with the historical narrative and commentary is the story of the author's journey from devout Witness youth to outspoken ex-Witness activist and atheist. Evans lays bare the circumstances leading to his "awakening" with startling honesty and reveals how the heartbreaking loss of his mother played a profound role in keeping long-held doubts suppressed. In the final chapters, the author discusses the various means by which Witnesses are controlled by their leadership. Evans analyzes the role of shunning (disfellowshipping) and the stigmatization of "apostates" in enforcing loyalty among Witnesses, and reflects on the indifference of society in general to human rights violations by high-control groups. The phenomenon of fundamentalist brainwashing, or "undue influence," is also scrutinized, and those in search of a new life free from its pervasive effects are given reasons for hope. Rather than being a sensationalist rant by an embittered ex-member, *The Reluctant Apostate*

offers a relaxed, good-humored tour of Witness history and teachings supported by extensive references (to be found in the "Notes" section). Though written predominantly with the non-Witness reader in mind, special boxes are also provided for Jehovah's Witness readers. Reviews "Both memoir and reference book, Lloyd Evans' work is an extensive compilation of Jehovah's Witness history and theology. In his honest and exhaustively researched expose, Evans has written what is sure to be the most important book on the religion in this century. *The Reluctant Apostate* is a must-read for Jehovah's Witnesses and anyone else who has been touched by the faith." -Scott Terry, author of *Cowboys, Armageddon and the Truth* "Insight only an 'insider' can bring to a subject difficult to understand for those who have never been part of this world, and unthinkable to contemplate for those inside its bubble. Lloyd does a magnificent job of speaking to both audiences and everyone in between. Compassion for the plight of those still held captive bleeds through every page." -Mike Rinder, former senior executive of the Church of Scientology, as featured on the A&E series *Leah Remini: Scientology and the Aftermath* "A compelling and informative window on the world of the Jehovah's Witnesses that will be a vital and life changing resource for former members and many others too in forming an authentic understanding of this group, its beliefs, methods and effects on individuals and families." -Professor Rod Dubrow-Marshall, Ph.D. Co-Editor *International Journal of Cultic Studies* and co-founder RETIRN UK Dr. Linda Dubrow-Marshall, Ph.D. Co-founder RETIRN UK

Blood and Religion Dec 09 2020 Love places these matters in context against the broader background of endemic civil war, contemporary religious culture, and the many responsibilities imposed upon Henri by his royal rank and political role. *Blood and Religion* concludes with a close analysis of Henri's conversion to Catholicism in July 1593, including the king's crisis of conscience as he struggled to secure his crown and preserve his soul. Love's fresh interpretations of the influence of religion on Henri IV's political and military choices challenge much of modern scholarship on this important French monarch and cast new light on the motivations and worldview of sixteenth-century sovereigns in an age when religion and politics were inseparable.

Constitutional Conscience Oct 26 2019 While many recent observers have accused American judges—especially Supreme Court justices—of being too driven by politics and ideology, others have argued that judges are justified in using their positions to advance personal views. Advocating a different approach—one that eschews ideology but still values personal perspective—H. Jefferson Powell makes a compelling case for the centrality of individual conscience in constitutional decision making. Powell argues that almost every controversial decision has more than one constitutionally defensible resolution. In such cases, he goes on to contend, the language and ideals of the Constitution require judges to decide in good faith, exercising what Powell calls the constitutional virtues: candor, intellectual honesty, humility about the limits of constitutional adjudication, and willingness to

admit that they do not have all the answers. *Constitutional Conscience* concludes that the need for these qualities in judges—as well as lawyers and citizens—is implicit in our constitutional practices, and that without them judicial review would forfeit both its own integrity and the credibility of the courts themselves.

The Uneasy Conscience of Modern Fundamentalism Mar 31 2020 Originally published in 1947, *The Uneasy Conscience of Modern Fundamentalism* has since served as the manifesto of evangelical Christians serious about bringing the fundamentals of the Christian faith to bear in contemporary culture. In this classic book Carl F. H. Henry, the father of modern fundamentalism, pioneered a path for active Christian engagement with the world -- a path as relevant today as when it was first staked out. Now available again and featuring a new foreword by Richard J. Mouw, *The Uneasy Conscience of Modern Fundamentalism* offers a bracing world-and-life view that calls for boldness on the part of the evangelical community. Henry argues that a reformation is imperative within the ranks of conservative Christianity, one that will result in an ecumenical passion for souls and in the power to meaningfully address the social and intellectual needs of the world.

A Crisis of Conscience Apr 24 2022 Finding that the Catholic Church's position clashed with his profession and some of his own views, a deeply devout doctor, still committed to his spirituality, offers his opinions on such issues as abortion, divorce, women priests, and birth control.

Crisis of Conscience Oct 31 2022

Between Enterprise and Ethics Jun 02 2020 We live in a 'bimoral' society, in which people govern their lives by two contrasting sets of principles. On the one hand there are the principles associated with traditional morality. Although these allow a modicum of self-interest, their emphasis is on our duties and obligations to others: to treat people honestly and with respect, to treat them fairly and without prejudice, to help and care for them when needed, and ultimately, to put their needs above our own. On the other hand there are the principles associated with the entrepreneurial self-interest. These also impose obligations, but of a much more limited kind. Their emphasis is competitive rather than cooperative: to advance our own interests rather than to meet the needs of others. Both sets of principles have always been present in society but in recent years traditional moral authorities have lost much of their force and the morality of self-interest has acquired a much greater social legitimacy, over a much wider field of behaviour, than ever before. The result of this is that in many situations it is no longer at all apparent which set of principles should take precedence. In this book John Hendry traces the cultural and historical origins of the 'bimoral' society and explores the challenges it poses for the world of business and management. The developments that have led to the 'bimoral' society have also led to new, more flexible forms of organizing, which have released people's entrepreneurial energies and significantly enhanced the creative capacities of business. Working within these organizations, however, is fraught with moral tensions as obligations and self-interest

conflict and managers are pulled in all sorts of different directions. Managing them successfully poses major new challenges of leadership, and 'moral' management, as the technical problem-solving that previously characterised managerial work is increasingly accomplished by technology and market mechanisms. The key role of management becomes the political and moral one of determining purposes and priorities, reconciling divergent interests, and nurturing trust in interpersonal relationships. Exploring these tensions and challenges, Hendry identifies new issues for contemporary management and puts recognized issues into context. He also explores the challenges posed for a post-traditional society as it seeks to regulate and govern an increasingly powerful and global business sector.

Secularism and Freedom of Conscience Jul 04 2020 Jocelyn Maclure and Charles Taylor provide a clearly reasoned, articulate account of the two main principles of secularism—equal respect, and freedom of conscience—and argue that in our religiously diverse, politically interconnected world, secularism, properly understood, may offer the only path to religious and philosophical freedom.

The Dissenters: The crisis and conscience of nonconformity Dec 29 2019 This third and final volume of Michael Watts's study of dissent examines the turbulent times of Victorian Nonconformity, a period of faith and of doubt. Watts assesses the impacts of the major Dissenting preachers and provides insights into the various movements, such as romanticism and the higher, often German, biblical criticism. He shows that the preaching of hell and eternal damnation was more effective in recruiting to the chapels than the gentler interpretations. A major feature of the volume is a thorough analysis of surviving records of attendance at Nonconformist services. He provides fascinating accounts of Spurgeon and the other key figures of Nonconformity, including of the Salvation Army. Dr Watts also provides a fresh discussion of the contribution which Nonconformity made to the politics of mid- to late-Victorian Britain. He examines such issues of reform as Forster's Education Act of 1871, temperance, and Balfour's Education Act of 1902, and considers Nonconformist interventions in such controversies as the Bulgarian Agitation, Home Rule for Ireland, the Armenian massacres of the mid 1890s, and the Boer War. The volume concludes with the Liberal landslide in the 1906 general election, which saw probably more Nonconformists elected than any time since the era of Oliver Cromwell.

The Nazi Conscience Apr 12 2021 The author identifies the "ethnic fundamentalism" that infused Nazism, revealing the "conscience" and civic morality that founded the core of Nazi ideology, using a wide variety of sources to flesh out this controversial take on the Nazis. (History)

Small Things Like These Oct 07 2020 Shortlisted for the 2022 Booker Prize "A hypnotic and electrifying Irish tale that transcends country, transcends time." —Lily King, New York Times bestselling author of *Writers & Lovers* *Small Things Like These* is award-winning author Claire Keegan's landmark new novel, a tale of one man's

courage and a remarkable portrait of love and family It is 1985 in a small Irish town. During the weeks leading up to Christmas, Bill Furlong, a coal merchant and family man faces into his busiest season. Early one morning, while delivering an order to the local convent, Bill makes a discovery which forces him to confront both his past and the complicit silences of a town controlled by the church. Already an international bestseller, *Small Things Like These* is a deeply affecting story of hope, quiet heroism, and empathy from one of our most critically lauded and iconic writers. **Crisis of Conscience** Nov 19 2021 *Crisis of Conscience* features personal stories by Arkansas Methodist pastors, laypersons, and community leaders—including Dale Bumpers, M. Joycelyn Elders, and Miller Williams—who lived through the struggles for civil rights in the 1950s and saw their congregations and other institutions rocked by the tumultuous events of the history-making era. The book also depicts the desegregation of Hendrix College, the prophetic role of Philander Smith College in civil rights activism, and the experiences of other Arkansas Methodist institutions in the great freedom struggle that caused many of the state's church members to realize they could no longer reconcile their belief in God with participation in a segregated society.

Crisis of Conscience Jan 22 2022 Here eight outstanding scholars from the U.S. and Europe reflect upon the issues. They are Joseph Cardinal Ratzinger, Ralph McInerny, Robert Spamann, Servais Pinckaers, Wojciech Giertych, Ignacio Carrasco de Paula, Carlo Cafarra, and John M. Haas. Anyone interested in the advancement of human, moral, and spiritual values will welcome this clarifying book.

Seeking Refuge Jun 14 2021 Recipient of Christianity Today's Award of Merit in Politics and Public Life, 2016 ----- What will rule our hearts: fear or compassion? We can't ignore the refugee crisis—arguably the greatest geopolitical issue of our time—but how do we even begin to respond to something so massive and complex? In *Seeking Refuge*, three experts from World Relief, a global organization serving refugees, offer a practical, well-rounded, well-researched guide to the issue. Who are refugees and other displaced peoples? What are the real risks and benefits of receiving them? How do we balance compassion and security? Drawing from history, public policy, psychology, many personal stories, and their own unique Christian worldview, the authors offer a nuanced and compelling portrayal of the plight of refugees and the extraordinary opportunity we have to love our neighbors as ourselves.

Post Corona Sep 05 2020 New York Times bestseller! "Few are better positioned to illuminate the vagaries of this transformation than Galloway, a tech entrepreneur, author and professor at New York University's Stern School. In brisk prose and catchy illustrations, he vividly demonstrates how the largest technology companies turned the crisis of the pandemic into the market-share-grabbing opportunity of a lifetime." --The New York Times "As good an analysis as you could wish to read." --The Financial Times From bestselling author and NYU Business School professor Scott Galloway comes a keenly insightful,

urgent analysis of who stands to win and who's at risk to lose in a post-pandemic world The COVID-19 outbreak has turned bedrooms into offices, pitted young against old, and widened the gaps between rich and poor, red and blue, the mask wearers and the mask haters. Some businesses—like home exercise company Peloton, video conference software maker Zoom, and Amazon—woke up to find themselves crushed under an avalanche of consumer demand. Others—like the restaurant, travel, hospitality, and live entertainment industries—scrambled to escape obliteration. But as New York Times bestselling author Scott Galloway argues, the pandemic has not been a change agent so much as an accelerant of trends already well underway. In *Post Corona*, he outlines the contours of the crisis and the opportunities that lie ahead. Some businesses, like the powerful tech monopolies, will thrive as a result of the disruption. Other industries, like higher education, will struggle to maintain a value proposition that no longer makes sense when we can't stand shoulder to shoulder. And the pandemic has accelerated deeper trends in government and society, exposing a widening gap between our vision of America as a land of opportunity, and the troubling realities of our declining wellbeing. Combining his signature humor and brash style with sharp business insights and the occasional dose of righteous anger, Galloway offers both warning and hope in equal measure. As he writes, "Our commonwealth didn't just happen, it was shaped. We chose this path—no trend is permanent and can't be made worse or corrected."

Leaving the Witness Feb 29 2020 "A fascinating glimpse into the consciousness of being an outsider in every possible way, and what it takes to find your path into the life you'd like to lead."--Nylon A riveting memoir of losing faith and finding freedom while a covert missionary in one of the world's most restrictive countries. A third-generation Jehovah's Witness, Amber Scarah had devoted her life to sounding God's warning of impending Armageddon. She volunteered to take the message to China, where the preaching she did was illegal and could result in her expulsion or worse. Here, she had some distance from her community for the first time. Immersion in a foreign language and culture—and a whole new way of thinking—turned her world upside down, and eventually led her to lose all that she had been sure was true. As a proselytizer in Shanghai, using fake names and secret codes to evade the authorities' notice, Scarah discreetly looked for targets in public parks and stores. To support herself, she found work at a Chinese language learning podcast, hiding her real purpose from her coworkers. Now with a creative outlet, getting to know worldly people for the first time, she began to understand that there were other ways of seeing the world and living a fulfilling life. When one of these relationships became an "escape hatch," Scarah's loss of faith culminated in her own personal apocalypse, the only kind of ending possible for a Jehovah's Witness. Shunned by family and friends as an apostate, Scarah was alone in Shanghai and thrown into a world she had only known from the periphery—with no education or support system. A coming of age story of a woman already in her thirties, this

unforgettable memoir examines what it's like to start one's life over again with an entirely new identity. It follows Scorch to New York City, where a personal tragedy forces her to look for new ways to find meaning in the absence of religion. With compelling, spare prose, *Leaving the Witness* traces the bittersweet process of starting over, when everything one's life was built around is gone.

JLA (1996-) #115 Sep 25 2019 In 'Crisis of Conscience' part 1, superstar writer Geoff Johns (GREEN LANTERN, JSA) joins the JLA for an IDENTITY CRISIS tie-in arc! Before they can discuss the actions and repercussions of the League within the League, the JLA first must battle some old foes. The Secret Society of Super-Villains has returned, and somehow they have more information on the heroes' lives than ever before!

Crisis of Conscience Mar 12 2021 Following the events in the murder mystery Identity Crisis comes the Crisis of Conscience of the world's greatest superheroes - the Justice League of America! The JLA face a crossroads, as each member questions the morality of their actions in secretly wiping the minds of a group of supervillains, following their attack on a JLA member's wife. But new threats loom in the form of the Secret Society of Supervillians, victims of the mind-erasure who seek to enact revenge on those closest to the JLA, and an old, deadly threat who has resurfaced with murder in mind! Friendships are tested and long-time alliances dissolve in this hero-packed tie-in to the epic Infinite Crisis storyline, written by Geoff Johns with art by Chris Batista!

Apocalypse Delayed Jan 28 2020 Since 1876, Jehovah's Witnesses have believed that they are living in the last days of the present world. Charles T. Russell, their founder, advised his followers that members of Christ's church would be raptured in 1878, and by 1914 Christ would destroy the nations and establish his kingdom on earth. The first prophecy was not fulfilled, but the outbreak of the First World War lent some credibility to the second. Ever since that time, Jehovah's Witnesses have been predicting that the world would end "shortly." Their numbers have grown to many millions in over two hundred countries. They distribute a billion pieces of literature annually, and continue to anticipate the end of the world. For almost thirty years, M. James Penton's *Apocalypse Delayed* has been the definitive scholarly study of this religious movement. As a former member of the sect, Penton offers a comprehensive overview of the Jehovah's Witnesses. His book is divided into three parts, each presenting the Witnesses' story in a different context: historical, doctrinal, and sociological. Some of the issues he discusses are known to the general public, such as the

sect's opposition to military service and blood transfusions. Others involve internal controversies, including political control of the organization and the handling of dissent within the ranks. Thoroughly revised, the third edition of Penton's classic text includes substantial new information on the sources of Russell's theology and on the church's early leaders, as well as coverage of important developments within the sect since the second edition was published fifteen years ago.

Crisis of Conscience Sep 29 2022 "A call to arms and to action, for anyone with a conscience, anyone alarmed about the decline of our democracy." — New York Times bestselling author Wendell Potter "Powerful...His extensively reported tales of individual whistleblowers and their often cruel fates are compelling...They reveal what it can mean to live in an age of fraud." — The Washington Post "Tom Mueller's authoritative and timely book reveals what drives a few brave souls to expose and denounce specific cases of corruption. He describes the structural decay that plagues many of our most powerful institutions, putting democracy itself in danger." —George Soros A David-and-Goliath story for our times: the riveting account of the heroes who are fighting a rising tide of wrongdoing by the powerful, and showing us the path forward. We live in a period of sweeping corruption -- and a golden age of whistleblowing. Over the past few decades, principled insiders who expose wrongdoing have gained unprecedented legal and social stature, emerging as the government's best weapon against corporate misconduct--and the citizenry's best defense against government gone bad. Whistleblowers force us to confront fundamental questions about the balance between free speech and state secrecy, and between individual morality and corporate power. In *Crisis of Conscience*, Tom Mueller traces the rise of whistleblowing through a series of riveting cases drawn from the worlds of healthcare and other businesses, Wall Street, and Washington. Drawing on in-depth interviews with more than two hundred whistleblowers and the trailblazing lawyers who arm them for battle--plus politicians, intelligence analysts, government watchdogs, cognitive scientists, and other experts--Mueller anatomizes what inspires some to speak out while the rest of us become complicit in our silence. Whistleblowers, we come to see, are the freethinking, outspoken citizens for whom our republic was conceived. And they are the models we must emulate if our democracy is to survive.

Conscience and Its Enemies Jul 16 2021 "Many in elite circles yield to the temptation to believe

that anyone who disagrees with them is a bigot or a religious fundamentalist. Reason and science, they confidently believe, are on their side. With this book, I aim to expose the emptiness of that belief." From the introduction: Assaults on religious liberty and traditional morality are growing fiercer. Here, at last, is the counterattack. Showcasing the talents that have made him one of America's most acclaimed and influential thinkers, Robert P. George explodes the myth that the secular elite represents the voice of reason. In fact, George shows, it is on the elite side of the cultural divide where the prevailing views frequently are nothing but articles of faith. *Conscience and Its Enemies* reveals the bankruptcy of these too often smugly held orthodoxies while presenting powerfully reasoned arguments for classical virtues.

Crisis of Conscience Jun 26 2022 *A Question of Conscience* Dec 21 2021 *Crisis of Conscience* Aug 29 2022 Author Raymond Franz, former member of the Governing Body of Jehovah's Witnesses presents his story of a struggle to prevent the erosion of his God-given freedom of conscience as well as that of others, forming the heart of this very personal and candid account. Franz's description of his journey in *Crisis of Conscience* is presented with sensitivity and compassion. The information nevertheless raises very fundamental questions that are both disturbing and conscience stirring. Starting in the 1870s as an independent Bible study group composed of a handful of persons in Pittsburgh, Pennsylvania, Jehovah's Witnesses today number more than eight million in some 240 lands. In countries where they are active, few people have not had contact with the Witnesses as a result of their intense door-to-door activity. Yet for most persons the religion remains a near mystery. More remarkably, very few Witnesses themselves have any knowledge of their history or doctrine forming and policy-making processes of their own organization. The Governing Body sessions and discussions are totally private and not open to the rest of Jehovah's Witnesses. Yet that Body's decisions are applicable and enforceable toward every Witness on earth. As a third-generation member, the author lived the first sixty years of his life among Jehovah's Witnesses, serving in various countries at nearly every level of the organizational structure. The final nine of those sixty years were spent on the central executive council, the Governing Body. Those years led to his crisis of conscience, which is the theme of this book. It is a unique account as it allows the reader a view of the decision-making sessions of Jehovah's Witnesses inner council, and the powerful, sometimes dramatic, impact that their decisions have on people's lives.
