[Minds on Fire](#) Dec 21 2021 A Choice Outstanding Academic Title of the Year In *Minds on Fire*, Mark C. Carnes shows how role-immersion games channel students' competitive (and sometimes mischievous) impulses into transformative learning experiences. His discussion is based on interviews with scores of students and faculty who have used a pedagogy called *Reacting to the Past*, which features month-long games set during the French revolution, Galileo's trial, the partition of India, and dozens of other epochal moments in disciplines ranging from art history to the sciences. These games have spread to over three hundred campuses around the world, where many of their benefits defy expectations. "[*Minds on Fire* is] Carnes's beautifully written apologia for this fascinating and powerful approach to teaching and learning in higher education. If we are willing to open our minds and explore student-centered approaches like *Reacting [to the Past]*, we might just find that the spark of student engagement we have been searching for in higher education's mythical past can catch fire in the classrooms of the present." —James M. Lang, *Chronicle of Higher Education* "This book is a highly engaging and inspirational study of a 'new' technique that just might change the way educators bring students to learning in the 21st century." —D. D. Bouchard, *Choice*

Locating Milton Jun 02 2020 *Locating Milton: Places and Perspectives* collects nine previously unpublished essays that examine Milton's works as the product of his unique intellectual experiences at home and abroad, while also tracing the ways in which those works themselves express the influence of his travel, his reading, and his political engagement. Following an interpretive introduction that seeks to locate Milton through his last surviving letter, the first group of essays examine how young Milton locates himself through his travels in Italy, how Milton's early reading leads him to situate himself intellectually, and how the intellectual framework Milton generated remains pertinent to students and communities today. The second group calculates the impact of early modern mathematical and scientific models on Milton's cosmology, demonstrating how Milton's complex negotiations of such models give form and perspective to his greatest poetic works. The final group of essays locates Milton distinctly through his works' global reception, ranging from the anonymous English poem *Praeexistence*, to Milton's place in the "new world" and science fiction, to his presence as a figure inspiring political resistance in communist Hungary.

Beethoven's Symphonies: An Artistic Vision

Jul 04 2020 "[Beethoven's] music never grows old— and, enjoyed alongside Mr. Lockwood's expert commentary, it sparkles with fresh magic."—Wall Street Journal More than any other composer, Beethoven left to posterity a vast body of material that documents the early stages of almost everything he wrote. From this trove of sketchbooks, Lewis Lockwood draws us into the composer's mind, unveiling a creative process of astonishing scope and originality. For musicians and nonmusicians alike, Beethoven's symphonies stand at the summit of artistic achievement, loved today as they were two hundred years ago for their emotional cogency, variety, and unprecedented individuality. Beethoven labored to complete nine of them over his lifetime—a quarter of Mozart's output and a tenth of Haydn's—yet no musical works are more iconic, more indelibly stamped on the memory of anyone who has heard them. They are the products of an

imagination that drove the composer to build out of the highest musical traditions of the past something startlingly new. Lockwood brings to bear a long career of studying the surviving sources that yield insight into Beethoven's creative work, including concept sketches for symphonies that were never finished. From these, Lockwood offers fascinating revelations into the historical and biographical circumstances in which the symphonies were composed. In this compelling story of Beethoven's singular ambition, Lockwood introduces readers to the symphonies as individual artworks, broadly tracing their genesis against the backdrop of political upheavals, concert life, and their relationship to his major works in other genres. From the first symphonies, written during his emerging deafness, to the monumental Ninth, Lockwood brings to life Beethoven's lifelong passion to compose works of unsurpassed beauty.

Cabin 1 Jun 14 2021 From multi-award-winning romantic suspense author Amanda McKinney comes the first book in the steamy, edge-of-your-seat, three-part series, *Steele Shadows Security*...Hidden deep in the remote mountains of Berry Springs is a private security firm where some go to escape, and others find exactly what they've been looking for. Welcome to Cabin 1, Cabin 2, Cabin 3...Cocky, reckless, and die-hard playboy were just a few of the names Gage Steele had been called since he and his brothers left the Marines and moved back to the small, southern town of Berry Springs to take over their father's personal security firm. On the one-year anniversary of his father's death, Gage had only two things in mind--endless whiskey and endless women, but what he got was a battered, bruised spitfire stumbling through woods in the middle of the night. Newly-appointed prosecutor and unapologetic workaholic, Niki Avery had spent her life working toward one goal--never to have to depend on anyone but herself... until the day

she was brutally attacked on the side of the road. Stripped of her Louis Vuitton and her dignity, the fiercely independent ADA must submit to being under the watchful eye of a former Marine, a loose cannon with a temper as scorching as his ruggedly handsome good looks. As cracks begin to show in the Steele family, including newly discovered evidence that their father's death was no accident, Gage wrestles with his growing feelings for his client, knowing not only that Niki is off-limits, but together, they were like gasoline and fire--an explosion he wanted nothing more than to ignite in the bedroom. But when a pair of bloody body parts show up at the compound, it becomes clear that Niki's attacker hasn't given up and Gage realizes he'll do anything to keep her safe... even as his own family is spiraling out of control. *Cabin 1* is the first book in the 3-part Berry Springs spinoff series, *STEELE SHADOWS SECURITY*--Think of it as Berry Springs' darker, grittier, steamier, *BAD BOY* brother. Virgil's Aeneid Aug 17 2021 In this collection of twelve of his essays, distinguished Virgil scholar Michael Putnam examines the Aeneid from several different interpretive angles. He identifies the themes that permeate the epic, provides detailed interpretations of its individual books, and analyzes the poem's influence on later writers, including Ovid, Lucan, Seneca, and Dante. In addition, a major essay on wrathful Aeneas and the tactics of Pietas is published here for the first time. Putnam first surveys the intellectual development that shaped Virgil's poetry. He then examines several of the poem's recurrent dichotomies and metaphors, including idealism and realism, the line and the circle, and piety and fury. In succeeding chapters, he examines in detail the meaning of particular books of the Aeneid and argues that a close reading of the end of the epic is crucial for understanding the poem as a whole and Virgil's goals in composing it.

Movement, Action, Image, Montage Oct 26 2019 A major new study of Sergei Eisenstein delivers fresh, in-depth analyses of the iconic filmmaker's body of work What can we still learn from Sergei Eisenstein? Long valorized as the essential filmmaker of the Russian Revolution and celebrated for his indispensable contributions to cinematic technique, Eisenstein's relevance to contemporary culture is far from exhausted. In Movement, Action, Image, Montage, Luka Arsenjuk considers the auteur as a filmmaker and a theorist, drawing on philosophers such as Georg Wilhelm Friedrich Hegel and Gilles Deleuze—as well as Eisenstein's own untranslated texts—to reframe the way we think about the great director and his legacy. Focusing on Eisenstein's unique treatment of the foundational concepts of cinema—movement, action, image, and montage—Arsenjuk invests each aspect of the auteur's art with new significance for the twenty-first century. Eisenstein's work and thought, he argues, belong as much to the future as the past, and both can offer novel contributions to long-standing cinematic questions and debates. Movement, Action, Image, Montage brings new elements of Eisenstein's output into academic consideration, by means ranging from sustained and comprehensive theorization of Eisenstein's practice as a graphic artist to purposeful engagement with his recently published, unfinished book Method, still unavailable in English translation. This tour de force offers new and significant insights on Eisenstein's oeuvre—the films, the art, and the theory—and is a landmark work on an essential filmmaker.

What He Always Knew May 26 2022 THE EPIC FINALE IN THE WHAT HE DOESN'T KNOW DUET Left or right. It's that simple, and it isn't simple at all. If I turn left, the road will lead me back to the man I promised my life to, the one I'd imagined building a family with, the one who's done everything in his power to get me back. If I turn right, the road will take me to the man I loved first, the man who brought me back to life, the man who would do anything to keep me. I knew the fork in the road was inevitable; it was the decision I never wanted to make between choices I didn't know I had. And I love them both. My heart is destined to exist in two equal halves - one with each man. But one half beats stronger, the vein running

deepest, and holds my choice in silence long before I know it for myself. The realization of what I have to do, of the heart I have to break, just might break mine too. Left or right. All I have to do is take a breath and turn.
