Wild Vet Adventures Dec 30 2019 Wildlife veterinarian and super-fashionista Dr. Gabby Wild takes young readers on a journey around the world to discover amazing animals and how to care for them. Travel the continents to meet some of Earth's most incredible critters through the eyes of a windblown, adventurous wildlife veterinarian. Join Dr. Gabby Wild as she performs dental work on a jaguar, teaches a baby bird to fend for itself, and gives a chimp a checkup. Learn about animal anatomy and behaviors, diets, families, and the dangers they face in the wild. Get up close--and we do mean CLOSE--to more than 80 animals that are both familiar and not so familiar, including regal lions, playful pandas, fearsome Gila monsters, and creepy tarantulas. Examine world maps to learn about amphibians, wild cats, and primates across the globe. Read about some special human-animal relationships as well as challenges that arise when they share a habitat. Then learn how people are working to save and protect endangered species. And for your final thrill, find out how YOU can become a wildlife vet, too!

World Butterflies Mar 01 2020 This book is a handy guide to the identification of the True Butterflies (Papilionoidea) of the world at least to genus level. It is a condensed version of the Concise Atlas of Butterflies of the World (published in 2001). All known butterfly families are represented. An introductory section contains information about the biology of the butterfly, life history, migration, distribution, insect diseases, classification, aberrations and more. The main part of the book consists of 144 plates with more than 6400 accurate colour illustrations at approximately 60% of natural size. At least one species for most of the known genera is shown. The most up-to date taxonomy was used in the brief, authoritative text that accompanies each plate, showing the number of known species in the genus and the distributions of the species. The book is arranged according to 5 faunal regions, and follows as

closely as possible the taxonomic sequences within those faunal regions.

Spotter's Sticker Guides Jan 29 2020 A new title in this exciting and informative series of books containing over 100 full-colour stickers that children can match to the illustrations. A beautifully illustrated sticker book that doubles as a spotters' guide, with accurate and simple descriptions that allow children to seek out and identify a plethora of species and learn all about key aspects of natural history. Space is allocated to each illustration so that details of when and where each butterfly was spotted can be inserted. Also contains a glossary of relevant words. Small size allows the books to fit neatly into a pocket so children can spot on the go
