This PEFA assessment provides a snapshot of the country's PFM system performance in order to support the government in defining PFM reform priorities. The previous assessment was conducted in 2015, therefore the current assessment follows after the recommended time period between the two assessments. Furthermore, the scope and objectives of the reforms initiated and implemented in the intervening period makes tracking the change in the PFM system needed and meaningful. The assessment was conducted by the International Monetary Fund and the World Bank, with

Sub-regionalisms in the European Union: Bridge-builders or spoilers? Oct 15 2021 In today's interconnected, differentiated and polarized European Union, sub-regional groupings between the national and EU level are a highly relevant empirical phenomenon. Despite their importance, the interactions between sub-regionalisms and EU actors and processes remain under-researched. This book fills this large research gap by applying a systematic comparative approach. Taking into account a huge corpus of empirical data gained through expert interviews and document analysis, this study provides the conceptual and empirical groundwork necessary to better understand EU sub-regionalism. For the timeframe between 2009 and 2018, it analyses the scope of sub-regional cooperation in the Baltic, Benelux and Visegrád

groupings. Moreover, it compares their respective institutional design, political identity, foreign policy as well as their external recognition by EU actors. A special focus lies on their role in six EU policy cases, including EU budget negotiations, TTIP, the drafting process of the EU Global Strategy, refugee relocation quotas, the revision of the posted workers directive and defence cooperation through PESCO. In its conclusion, this book identifies two sub-regional archetypes: functional hubs and political tools. While differing in many regards, the shared assessment finds that the overall bridge-building efforts of the Baltic, Benelux and Visegrád sub-regionalisms exceed their spoiling potential.

Tonga Jun 30 2020 Tonga's recovery following the devastation of the 2018 Cyclone Gita has been derailed by a double blow from the pandemic and Cyclone Harold. FY2020 GDP growth is estimated to fall to -21/2 percent due to domestic containment measures, a

sudden stop in tourism, and investment delays. The full brunt of the pandemic will be felt in FY2021 (beginning July) during peak tourism season, when a deeper contraction is expected. A worse outcome was avoided by early actions to close external borders—which has kept Tonga COVID-19-free—and prompt economic support. Beyond FY2021, the recovery is expected to resume in line with the global recovery, but the magnitude and trajectory is uncertain.

The Politics of Regional Cooperation and the Impact on the European Union May 10 2021

This unique book explores what subregions are in a European context and what roles they fulfil in relation to the European integration process, exploring how subregional cooperation and integration in Europe largely take place in the shadow of the European integration process.

The Struggle for Land Under Israeli Law Jan 06 2021

This book provides a comprehensive examination of land law for Arab Palestinians under Israeli

law. Land is one of the core resources of human existence, development and activity. Therefore, it is also a key basis of political power and of social and economic status. Land regimes and planning regulations play a dynamic role in deciding how competing claims over resources will be resolved. According to legal geography, spatial ordering impacts legal regimes; whilst legal rules form social and human space. Through the lenses of international law, colonisation and legal geography, the book examines the land regime in Israel. More specifically, it endeavours to understand the spatial strategies adopted by Israel to organise the entire territorial expanse of the country as Jewish, while also excluding Arab Palestinian citizens of Israel and residents of East Jerusalem from the landscape. The book then details how the systematic nature and processes of marginalisation are mapped out across the civil, political and socio-economic landscape. This

monograph will be of interest to international legal theorists, legal geographers, land lawyers and human rights practitioners and students; as well as to international scholars, NGOs and others focusing on the Israeli-Palestinian conflict. *Counter-Terrorist Financing Law and Policy* Dec 25 2019 Since the 9/11 attacks the world has witnessed the creation of both domestic and international legal instruments designed to disrupt and interdict the financial activities of terrorists. This book analyses the counter-terrorist financing law (CTF), policy and practice at the national level, focusing on Turkey. The work examines the limits and capabilities of CTF efforts on terrorism threats and determines the effectiveness of CTF efforts in Turkey, a country which has a pivotal role in terms of countering terrorism regionally and internationally. The Turkish case-study is supported by an empirical study involving 37 semi-structured interviews

with CTF practitioners and law enforcement experts with different affiliations and backgrounds. The findings illustrate that Turkey's CTF system has not obtained an adequate level of effectiveness as a result of lack of proper implementation of its policy in the bureaucratic, legal and operational spheres. It is evident that the administrative and legal systems in Turkey are established according to the 'one-size-fits-all' international CTF standards and thus are compliant with the international CTF benchmarks, yet the interviews reveal significant challenges at the implementation level including lack of training and financial security, heavy handed bureaucracy, inadequate coordination and communication between international and national levels. The book will be an invaluable resource for academics, students and policy-makers working in the areas of financial crime and terrorism. [Comparing the Ptolemaic and Seleucid Empires](#) Nov 23 2019

The Ptolemaic and Seleucid empires are usually studied separately, or else included in broader examinations of the Hellenistic world. This book provides a systematic comparison of the roles of local elites and local populations in the construction, negotiation, and adaptation of political, economic, military and ideological power within these states in formation. The two states, conceived as multi-ethnic empires, are sufficiently similar to make comparisons valid, while the process of comparison highlights and better explains differences. Regions that were successively incorporated into the Ptolemaic and then Seleucid state receive particular attention, and are understood within the broader picture of the ruling strategies of both empires. The book focusses on forms of communication through coins, inscriptions and visual culture; settlement policies and the relationship between local and immigrant populations; and the forms of collaboration with and resistance of local elites

against immigrant populations and government institutions. *ThompsonCourierRakeRegister_2018-04-26_all.pdf* Oct 03 2020

[Broadway in the Box](#) Jun 18

2019 It was as if American television audiences discovered the musical in the early 21st century. In 2009 Glee took the Fox Network and American television by storm with the unexpected unification of primetime programming, awkward teens, and powerful voices spontaneously bursting into song. After raking in the highest rating for a new show in the 2009-2010 season, Glee would continue to cultivate rabid fans, tie-in soundtracks and merchandising, and a spinoff reality competition show until its conclusion in 2015. Alongside Glee, NBC and Fox would crank up musical visibility with the nighttime drama *Smash* and a string of live musical productions. Then came ABC's comedic fantasy musical series *Galavant* and the CW's surprise Golden Globe darling *Crazy Ex-Girlfriend*. Television and the musical appeared to be a perfect match. But, as author Kelly Kessler illustrates, television had at that point been carrying on a sixty-year, symbiotic love affair with the

musical. From Rodgers and Hammerstein's appearance on the first Toast of the Town telecast and Mary Martin's iconic Peter Pan airings to Barbra Streisand's 1960s CBS specials, The Carol Burnett Show, Cop Rock, Great Performances, and a string of one-off musical episodes of sitcoms, nighttime soaps, fantasy shows, and soap operas, television has always embraced the musical. Kessler shows how the form is written across the history of American television and how its various incarnations tell the stories of shifting American culture and changing television, film, and theatrical landscapes. She recounts and explores this rich, decades-long history by traversing musicals, stars, and sounds from film, Broadway, and Las Vegas to the small screen.

Journal of Interdisciplinary Science Topics, Volume 7 Jul 12 2021 The Journal of Interdisciplinary Science Topics (JIST) forms part of the 'Interdisciplinary Research Journal' module in the third

year of both the BSc and MSci Natural Science degrees. It is intended to provide students with hands-on experience of, and insight into, the academic publishing process. The activity models the entire process from paper writing and submission, refereeing other students' papers, sitting on the editorial board that makes final decisions on the papers, to finally publishing in an online journal. This book is a compilation of the papers written by undergraduate students that were published during the 2017/2018 academic year.

The Holocaust's Jewish Calendars Apr 09 2021

Calendars map time, shaping and delineating our experience of it. While the challenges to tracking Jewish conceptions of time during the Holocaust were substantial, Alan Rosen reveals that many took great risks to mark time within that vast upheaval. Rosen inventories and organizes Jewish calendars according to the wartime settings in which they were produced—from Jewish

communities to ghettos and concentration camps. The calendars he considers reorient views of Jewish circumstances during the war and show how Jews were committed to fashioning traditional guides to daily life, even in the most extreme conditions. In a separate chapter, moreover, he elucidates how Holocaust-era diaries sometimes served as surrogate Jewish calendars. All in all, Rosen presents a revised idea of time, continuity, the sacred and the mundane, the ordinary and the extraordinary even when death and destruction were the order of the day. Rosen's focus on the Jewish calendar—the ultimate symbol of continuity, as weekday follows weekday and Sabbath follows Sabbath—sheds new light on how Jews maintained connections to their way of conceiving time even within the cauldron of the Holocaust.

Past Forward Sep 02 2020 A wide-ranging collection of concise essays, Past Forward introduces core features of Korean history that illuminate

current issues and pressing concerns, including recent political upheavals, social developments and cultural shifts. Adapted from Kyung Moon Hwang's regular columns in the Korea Times of Seoul, the essays present interpretative points concerning historical debates and controversies to generate thinking about the ongoing impact of the past on the present and vice versa: how Korea's present circumstances reflect and shape the evolving understanding of its past. In taking the reader on a compelling journey through history, Past Forward paints a distinctive, fascinating portrait of Korea and Koreans both yesterday and today.

Manipulated Aug 25 2022 Cybersecurity expert Theresa Payton tells battlefield stories from the global war being conducted through clicks, swipes, internet access, technical backdoors and massive espionage schemes. She investigates the cyberwarriors who are planning tomorrow's attacks,

weaving a fascinating yet bone-chilling tale of Artificial Intelligent mutations carrying out attacks without human intervention, “deepfake” videos that look real to the naked eye, and chatbots that beget other chatbots. Finally, Payton offers readers telltale signs that their most fundamental beliefs are being meddled with and actions they can take or demand that corporations and elected officials must take before it is too late. Payton reveals: How digital voting machines, voting online, and automatic registration may boost turnout but make us more vulnerable to cyberattacks. How trolls from Russia and other nations actively stroke discord among Americans in falsely-generated controversies over race relations, vaccinations, fracking, and other social issues. Whether what we have uncovered from the Mueller investigation so far is only what they wanted us to know.

Routledge Handbook of Tennis

Aug 01 2020 Tennis is one of the world's most popular sports, as levels of participation and spectatorship demonstrate. Moreover, tennis has always been one of the world's most significant sports, expressing crucial fractures of social class, gender, sexuality, race and ethnicity - both on and off court. This is the first book to undertake a survey of the historical and socio-cultural sweep of tennis, exploring key themes from governance, development and social inclusion to national identity and the role of the media. It is presented in three parts: historical developments; culture and representations; and politics and social issues, and features contributions by leading tennis scholars from North America, Europe, Asia and Australia. The most authoritative book published to date on the history, culture and politics of tennis, this is an essential reference for any

course or program examining the history, sociology, politics or culture of sport.

International Deficit

Thinking Sep 21 2019

International Deficit Thinking: Educational Thought and Practice explores the incontrovertible reality of the persistent and pervasive academic achievement gap in many countries between marginalized students (primarily of color) and their economically advantaged White counterparts. For example, International Deficit Thinking discusses the cases of low-socioeconomic Black and Mexican American students in the United States, Indigenous Māori students in New Zealand, and immigrant Moroccan and Turkish pupils in Belgium. The predominant theoretical perspective that has been advanced to explain the school failure of marginalized students is the deficit thinking paradigm—a parsimonious, endogenous, and pseudoscientific model that blames such students as the makers of their own school

failure. Deficit thinking asserts that the low academic achievement of many marginalized students is due to their limited intellectual ability, poor academic achievement motivation, and being raised in dysfunctional families and cultures. Drawing from, in part, critical race theory, systemic inequality analysis, and colonialism/postcolonialism, award-winning author and scholar Richard R. Valencia examines deficit thinking in education in 16 countries (e.g., Canada; Peru, Australia; England; India; South Africa). He seeks to (a) document and debunk deficit thinking as an interpretation for school failure of marginalized students; (b) offer scientifically defensible counternarratives for race-, class-, language-, and gender-based differences in academic achievement; (c) provide suggestions for workable and sustainable school reform for marginalized students.

Macro-Fiscal Management Practices in Eastern and Southern Africa May 22 2022

This paper examines the institutional arrangements of the macro-fiscal function in 16 African countries. Most ministries of finance (MoFs) have established a macro-fiscal department or unit, but their functions, size, structure and outputs vary considerably. Based on a survey, we present data on staff size, functional scope and the forecasting performance of macro-fiscal departments and identify common challenges in the countries reviewed. Some MoFs perform many macro-fiscal functions, but actions of various kinds are needed to strengthen their macro-fiscal

departments. This paper provides some guidance for policy-makers in the region for enhancing the quality and scope of macro-fiscal outputs. [Harley-davidson\(r\) 2018 - 16-month Calendar Includes September 2017 Through Oct 27 2022](#)

Guns and College Homicide

Aug 13 2021 At a time when mass shootings in schools and other public spaces have become commonplace, it might seem surprising that American college campuses are not magnets for murderers but sanctuaries from them. Because of remarkably effective gun-safe policies, deaths by firearms on college campuses are 1,000 times less frequent than in the U.S. public at large. Drawing on crime data submitted in compliance with the Clery Act and public

reports of those crimes, this study inventories every documented homicide at a U.S. college or university between 2001 and 2016, making a compelling argument for using gun-safe campuses as guides for broader public safety.

Judah Awakening Sep 14

2021 As the prophet was commanded in Ezekiel 40:4, so too was author Yahnwe Okeke instructed to document everything that was disclosed to her through dreams and visions concerning the Judaic roots of the Igbo people of Southeast Nigeria. In *Judah Awakening*, she chronicles the day-to-day experiences-cum-revelations. A written record of her spiritual encounters and confirmation from internet research, she shares details of her visions and dreams as they happened on different days beginning July 1, 2018, and continuing until the last day, January 24, 2019. Okeke summarizes her journey and highlights the key words which symbolize the core message of her experience. *Judah Awakening* presents an

insightful journal of Okeke's supernatural revelations of the Israel ancestry of the Igbos of South-East Nigeria, providing the words the Holy Spirit spoke regarding any connections between Israelites and Igbos. It offers a work that touches on religion, science, culture, and so much more.

White House, Inc. May 30 2020 An in-depth investigation into Donald Trump's business—and how he used America's top job to service it. White House, Inc. is a newsmaking exposé that details President Trump's efforts to make money off of politics, taking us inside his exclusive clubs, luxury hotels, overseas partnerships, commercial properties, and personal mansions. Alexander tracks hundreds of millions of dollars flowing freely between big businesses and President Trump. He explains, in plain language, how Trump tried to translate power into profit, from the 2016 campaign to the ramp-up to the 2020 campaign. Just because you turn the presidency into a business

doesn't necessarily mean you turn it into a good business. After Trump won the White House, profits plunged at certain properties, like the Doral golf resort in Miami. But the presidency also opened up new opportunities. Trump's commercial and residential property portfolio morphed into a one-of-a-kind marketplace, through which anyone, anywhere, could pay the president of the United States. Hundreds of customers—including foreign governments, big businesses, and individual investors—obliged. The president's disregard for norms sparked a trickle-down ethics crisis with no precedent in modern American history. Trump appointed an inner circle of centimillionaires and billionaires—including Ivanka Trump, Jared Kushner, Wilbur Ross, and Carl Icahn—who came with their own conflict-ridden portfolios. Following the president's lead, they trampled barriers meant to separate their financial holdings from their government roles. White

House, Inc. is a page-turning, hair-raising investigation into Trump and his team, who corrupted the U.S. presidency and managed to avoid accountability. Until now.

Food and Society Jun 11 2021

Food and Society provides a broad spectrum of information to help readers understand how the food industry has evolved from the 20th century to present. It includes information anyone would need to prepare for the future of the food industry, including discussions on the drivers that have, and may, affect food supplies. From a historical perspective, readers will learn about past and present challenges in food trends, nutrition, genetically modified organisms, food security, organic foods, and more. The book offers different perspectives on solutions that have worked in the past, while also helping to anticipate future outcomes in the food supply. Professionals in the food industry, including food
