The Lazlo Horvath Series Jul 29 2022 In Chernobyl Murders, Chernobyl engineer Mihaly Horvath discloses the unnecessary risks associated with the power plant to his brother, Kiev Militia detective Lazlo in a western Ukraine wine cellar in 1985. Spawned by a desire to protect his family, Lazlo investigates—irritating his superiors, drawing the attention of a CIA operative, raising the hackles of an old KGB major, and ultimately discovering his brother's secret affair with a Chernobyl technician, Juli Popovics. After the explosion, the Ukraine is not only blanketed with deadly radiation, but also becomes a killing ground involving pre-perestroika factions in disarray, a Soviet government on its last legs, and madmen hungry for power. With a poisoned environment at their backs and a killer snapping at their heels, Lazlo and Juli flee for their lives—and their love—in this engrossing political thriller. In Traffyck, when a Kiev video store is torched, the wife of the now-deceased owner—and primary suspect in the arson case—hires private investigator Janos Nagy. As he delves into the woman's past, Janos discovers things are far more than meets the eye, and as the case is pursued further, a human trafficking plot unfolds from Kiev across the Ukraine. With mixed involvement of Eastern European and Russian mafia, the Ukraine Secret Service, and both orthodox and nonorthodox church rivalries, the race to untangle the threads of the international trafficking ring turns quickly to a matter of life and death.

The Kill Wire Mar 13 2021 Security specialist and PI Jamie Sinclair crosses interstate boundaries—and personal ones too—in this electrifying thriller from an award-winning author who “understands how to keep her readers riveted from beginning to end” (USA Today). With a long list of high-profile, high-paying clients, Jamie Sinclair has her hands full—and that’s the way she likes it. Still reeling from the brutal investigation that drove a wedge between her and her boyfriend, military police officer Adam Barrett, Jamie is counting on hard work to help her forget her recent history—but then DEA agent Marc Sandoval barges back into her life. The last time they worked together, Jamie almost crossed all kinds of lines. Now Marc doesn’t just want Jamie, he needs her . . . because she’s the only one who can help him—and the little boy he never told her about. Marc’s ex has vanished, leaving their six-year-old son in his care. Despite a troubled past, Elena never wavered in her duties as a parent, so something must be very wrong now. Teaming with Marc to track Elena through her home state of Colorado and beyond, Jamie finds herself on a cross-country search for the missing mother of Marc’s child, at a crossroads with Adam, and on a collision course with the killers who’ll stop at nothing to find Elena first. Don’t miss any of Nichole Christoff’s white-knuckle Jamie Sinclair thrillers: THE KILL LIST | THE KILL SHOT | THE KILL BOX | THE KILL SIGN | THE KILL WIRE | THE KILL CHAIN “Intelligent and fast-paced, Nichole Christoff’s debut thriller takes off like a rocket and never slows down.”—New York Times bestselling author Karen Rose, on The Kill List “Christoff doesn’t make the adventure a cake walk. She understands how to keep her readers riveted from beginning to end.”—USA Today, on The Kill Shot “An edge-of-the-seat thriller that doesn’t let up until the very last page.”—Library Journal, on The Kill Box

Bulletin of the University of Wisconsin; Engineering Series Volume 4 Jul 05 2020 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1908 edition. Excerpt: ... the curve as it entered the tube. The experiments on the submerged tubes, with entrance having square comers and of lengths varying from thirty-one hundredths feet to fourteen feet, have been designated by series, (Numbers 1 to 7), the tubes being shown in detail on Plate V. In series Number 1, the length of the tube was three and threequarters inches, equal to thirty-one hundredths feet, the same as the thickness of the bulkhead wall, the opening being cut through this wall at an angle as near ninety degrees as possible. The roughness from the effect of the saw was taken off with a smoothing plane, but sand paper was not used. The end of the wood was exposed at the sides of the tube as shown in the details'. In Series Number 2. the length of the tube was made equal to sixtytwo hundredths feet, double the length of Series Number 1, by adding wooden strips on the down-stream side. These wooden strips were surfaced and fitted closely to the down-stream edge of the previous tube so that the effect of the joint was practically eliminated. In Series Numbers 3, 4, 5 and 6. the length of the tube in each wise was made double the length of the preceding series number, becoming respectively one and twenty-five hundredths feet, two and one-half feet, five feet and ten feet. In Series Number 7, the length of the tube was made fourteen feet, about the extreme length possible with the arrangement of bulkhead and weir channels at that time. The outlet end of the submerged tube (with the single exception of the tube fourteen feet long, termed 7c') projected into the water on the down stream side of the bulkhead and was firmly braced to the sides of the ten foot channel, the braces being arranged in such a way as not to interfere with the flow through...

Trip Wire Jun 03 2020 Of Jackson Park, the first Cook County mystery featuring an unconventional trio of sleuths, Margo Jefferson of The New York Times said, “Charlotte Carter blends street savvy with wry urbanity and delivers a truly modern big-city crime tale.” Now Carter returns with another suspenseful novel that brings the black experience to vivid life during one of the most turbulent times in American history. It is December 1968. In the wake of assassinations and the violence of the Democratic convention in Chicago, “Summer of Love” idealism has disintegrated into suspicion and disillusion. On the city’s North Side, twentyish Cassandra Perry longs to be independent. She leaves the overprotective embrace of her granduncle and grandaunt, Woody and Ivy Lisle, and moves into a multiracial commune dedicated to brotherhood and just causes. But Cassandra’s search for identity plunges her into the dark side of peace, love, and unlimited freedom—even before she discovers the brutally violated bodies of the commune’s most charismatic activist couple. As Cassandra investigates with the help of Woody and Ivy, she begins to see some friends—especially one of her dearest—in a disturbing, deadly light. But when the three amateur sleuths run afoul of a police cover-up with explosive political ramifications, they face a desperate enemy determined to bury the—along with the truth.
